

Internet Safety Poster

The **Internet** is a global system of interconnected computer networks that link billions of devices worldwide. It is a *network of networks*, that consists of millions of private, public, academic, business, and government sites that carries an extensive range of information resources, services and entertainment. The amount of information and the potential to communicate worldwide is what makes the Internet so great. It's also what makes it scary. Used inappropriately, the Internet can be dangerous, hazardous and a poison to the ignorant.

Your goal is to create a poster targeted at grade 7s-9s. These posters will be printed and displayed in colour at our feeder schools. See PDFs on my site for ideas.

Take this project seriously!

Be original!

Be convincing!

Criteria:

- CMYK
- 300 DPI
- 11" x 17"
- The content must clearly reflect the concepts, strategies or ideals found in the Internet Safety PDFs
- Have clear, un-blurry graphics, preferably original.

	Level 4 Demonstrated a very high understanding of concepts completing all expectations	Level 3 Demonstrated a high understanding of concepts and met expectations	Level 2 Demonstrated considerable understanding of concepts, nearing expectations	Level 1 Demonstrated limited understanding of concepts and ideas	Achievement Not Demonstrated
Quality of composition	5	4	3	2.5	0
Quality of digital images/Photographs/Typography	5	4	3	2.5	0
All instructions followed including due date	5	4	3	2.5	0
Message, target market and professionalism adhered to.	5	4	3	2.5	0
